

Job Role: Cyber Analyst

Reports to: Cyber Product Leader

Role Definition

CFC is a fast growing, privately owned, award-winning MGA based in the centre of the London insurance market. As an early pioneer of cyber insurance within Lloyd's in 1999, CFC are now at the forefront of the fastest growing line of insurance in the world.

With over 25,000 cyber policyholders in over 60 countries around the world, we have the largest specialist team of cyber underwriters in the London market and the second largest portfolio by gross written premium. In order to remain at the front of this exciting market it is critical that we continue to innovate our products, service offerings and develop our marketing materials and brand profile.

As a result, we are looking to recruit an analyst for an exciting role within the business. The cyber analyst supports primarily our products function but also the claims, underwriting and marketing teams to help ensure CFC continues to strengthen its position as a global leader in the cyber insurance market.

The role of the Cyber Analyst will be to work across multiple teams within CFC to provide technical insight and support (to our clients and our internal stakeholders), whilst also supporting client presentations, the development of marketing collateral, and researching specific emerging areas within the field of cybersecurity.

Key Responsibilities & Accountabilities

- Development of high quality marketing materials to support the sale of our cyber insurance products
- Development of high quality training tools for brokers to support their cyber marketing efforts
- In-depth research of emerging issues within cyber security and cyber insurance
- Development of insightful research reports and cutting edge features within the field of cyber
- Research new risk management tools for inclusion within the cyber risk management portal
- Assist with the delivery of client cyber seminars.
- Assist with the development of cyber application forms.
- Support cyber marketing efforts, including the development of presentations and marketing collateral

JOB DESCRIPTION

- Support the delivery of client cyber seminars, and provision of internal training
- Support Marketing Manager with specific social media strategy for cyber insurance
- Support Marketing Manager with the production of award entries
- Liaise with PR team in relation to specific cyber related features and new articles

Skills & Abilities

- Excellent ability condense broad, complex topics into concise, digestible content
- Strong analytical and problem solving ability skills
- Excellent verbal & written communication skills and attention to detail
- Excellent research and analysis skills
- Excellent organisational skills & ability to operate under pressure
- Personable, and willing to learn and challenge the status quo

Knowledge & Experience

- Educated to degree level with a focus on social sciences.
- Personal passion for technology and the field of cyber security

Professional Qualifications (preferred)

- Honours degree
